Professional Experience

C.H. Guenther & Son, San Antonio, Texas

2024 - Present

Privately held, global diversified food manufacturer operating 30 manufacturing facilities across 5 countries with 4,500 employees, 2,500+ SKUs, and more than 2,400 customers across retail, foodservice, and commercial channels; company revenue is not publicly disclosed.

Financial Analysis Manager

- Lead financial planning, rolling forecasts, annual budgeting, long-range planning, and executive reporting for a retail business segment exceeding \$450M in annual revenue.
- Architected AI-enabled reporting, financial insight, and validation processes that generated approximately \$500K in annual savings, improved analytics efficiency by 99%, and reduced reporting cycle time by 33%, accelerating executive decision-making.
- Facilitated essential support for \$2B company-wide corporate transformation data initiatives using SAP analytics, financial dashboard automation, and integrated reporting solutions to improve visibility, efficiency, and decision support.
- Provide scenario modeling, risk assessments, and profit improvement recommendations that guide senior leadership decisions on volume, pricing, and resource allocation.

Lancer Worldwide, San Antonio, Texas

2022 - 2024

Global beverage-dispensing equipment manufacturer serving multinational foodservice and hospitality customers and operating as part of Hoshizaki Group, which reported ¥485.9 billion in 2025 net sales and employed more than 17,000 people globally.

Senior Cost Accountant

- Directed standard costing, variance analysis, inventory governance, and manufacturing finance activities while owning financial oversight for \$5M to \$10M research and development projects.
- Provided essential support for multinational gross margin and product profitability analyses that informed pricing strategy and improved decision support for commercial leadership.
- Facilitated essential support for a large-scale, multi-million-dollar, multi-entity ERP implementation that helped transform Lancer's \$200M business and support alignment with its \$5B parent company.
- Maintained J-SOX compliance documentation and enhanced audit readiness for a publicly traded parent organization.

H-E-B, San Antonio, Texas

2019 - 2022

One of the nation's largest independently owned grocery retailers, with annual sales of more than \$50 billion and 455+ stores across Texas and Mexico, supported by extensive warehouse, transportation, manufacturing, and retail operations.

Lead P&L Accounting Analyst

- Owned warehouse and transportation P&L analytics, labor modeling, and cost-driver reporting to improve financial transparency across large-scale logistics operations.
- Developed executive dashboards that highlighted margin leakage, labor trends, and cost optimization opportunities for leadership review.
- Strengthened close governance and analytical controls, improving reporting reliability and decision support for operational stakeholders.

Cost Accounting Manager

- Managed a \$1.5M inventory portfolio and implemented cost control measures that reduced shrinkage by 92% and generated approximately \$300K in annual facility savings through project implementations and process improvements.
- Facilitated essential support for ERP implementation and cross-functional finance modernization initiatives that improved process consistency and reporting visibility.

AllianceBernstein, San Antonio, Texas

2018 - 2019

Leading global investment-management and research firm with approximately \$867 billion in assets under management as of December 31, 2025, plus 4,468 employees and operations across 53 locations in 27 countries and jurisdictions.

Proxy & Securities Reference Associate

- Maintained the integrity of global security master data across equities, fixed income, derivatives, and class actions in a controlled environment.
- Delivered accurate compliance-sensitive reporting and reference data support for institutional investment portfolios.

Systems

Advanced Excel, VBA, Power Query, SAP Analytics Cloud, SAP DataSphere, NetSuite (Essbase), Hyperion, Prophix, Dynamics 365, MicroStrategy, R, Business Intelligence Reporting, Forecasting Models, Dashboard Development
